VariTap High-Performance Solution for Multipurpose Tapping

VariTap is the new high-performance multipurpose tapping solution from WIDIA™. The VariTap has an optimised geometry and is capable of working with a wide variety of ductile materials — including carbon and alloy steels, stainless steels, ductile iron, and cast aluminium. This new tool reduces inventory costs without losing the benefit of high-quality, consistent tool life in threading and tapping.

Returns not permitted on promotional transactions.

OFFER VALID UNTIL: March 31, 2017

Features and Benefits

- Ideal for customers who have a variety of materials to machine.
- Manufactured from high-vanadium HSS-E to provide long and consistent life.
- Geometry designed to allow tapping of a wide variety of ductile materials: carbon and alloy steels, stainless steels, ductile iron, and cast aluminium.
- Unique spiral point geometry provides low tapping torque while pushing chips ahead of the tap in through holes.
